

**Supplying various chemicals
and manufacturing specialized industrial detergents**

Tejarat Exir Energy Kian (Teekco) is a leading supplier of chemicals in Iran, thanks to its professional team in both industrial detergent production and supply of industrial chemicals. With over 30 years of experience along with a professional team involving university faculty expertized in oil, gas, petroleum and industrial chemicals, Teekco team is fully prepared to provide training, consulting, supply and production of any type of chemicals with required quantity. We help our customers to find the most effective solution to their industry-related. Integration of knowledge and experience of university faculty members as well as experts of industry is our main strength in the market. Furthermore, we are able to hold educational seminars on industrial chemicals for large industrial entities.

List of Products

1	DE-E1001	Elixir Degreaser (water-based)	a water-based solution for degreasing and removing contamination of all types of surfaces and industrial equipment.
2	DE-E1002	Elixir Degreasing (without Foam)	A water-based solution for degreasing and removing any type of contamination from all surfaces in CIP (Clean-in-Place) systems and closed circuit (circulation) systems.
3	DE-E1003	Elixir Degreaser (Organic-based)	A very powerful solution based on organic materials for degreasing and removing any type of contamination from all surfaces and industrial equipment.
4	DE-E1004	Organic-based Elixir Degreaser (Without Foam)	A solution based on organic materials for degreasing and removing any type of contamination from all surfaces in CIP (Clean In Place) systems with 9 closed-loop circuits.
5	DE-E1005	Elixir Neutral Cleaner (Multipurpose)	Suitable for use on all surfaces such as painted walls, glass, plastic, etc.
6	DE-E1006	Elixir Acidic Cleaner (Mineral-based)	An acidic solution based on mineral acids for descaling, rust removal, and general-purpose cleaning.
7	DE-E1007	Elixir Acidic Cleaner (Organic-based)	A solution based on organic acids that has very low corrosiveness.
8	DE-E1008	Acidic Cleaner Elixir (Without Foam)	An acidic solution used for closed-loop systems.
9	DE-E1009	Elixir Alkaline Cleaner	A water-based solution for degreasing and removing any type of contamination from all surfaces
10	DE-E1010	Stone cleaner (scrubber)	An aqueous-based solution for removing grease and any kind of contamination from all surfaces
11	DE-E1011	RO acidic cleaner	An acidic solution for cleaning reverse osmosis membrane.
12	DE-E1012	RO alkaline cleaner	An alkaline solution for cleaning reverse osmosis membrane.

13	DE-E1013	RO neutral cleaner	A neutral solution for cleaning reverse osmosis membrane.
14	DE-E1014	Electric parts cleaner (contact cleaner)	A highly effective solution for degreasing and cleaning circuit boards and electric parts.
15	DE-E1015	Poly cleaner (water-based)	An aqueous-based solution for cleaning and degreasing which has various applications in different industries.
16	DE-E1016	Poly cleaner (organic-based)	A very strong organic-based solution for cleaning and degreasing various applications in different industries.
17	DE-E1017	Turbine cleaner (water-based)	A water-based solution for cleaning rotating equipment such as turbines, compressors, etc.
18	DE-E1018	Turbine cleaner (organic-based)	An organic-based solution for cleaning rotating equipment such as turbines, compressors, etc.
19	DE-E1019	Oil dispersant	A solution for controlling and removing oil and grease contamination on sea surfaces, boilers, cooling towers, etc.
20	In-E1001	Bioside solution (antifungal, disinfectant, algaecide)	A solution for eliminating harmful microorganisms in soap water, stagnant water systems, etc.
21	In-E1002	Acidic antiscalant	An acidic solution injected to prevent scaling in water systems.
22	In-E1003	Alkaline antiscalant	An alkaline solution injected to prevent scaling in water systems.
23	In-E1004	Neutral antiscalant	A neutral solution injected to prevent scaling in water systems.
24	In-E1005	Oxygen scavenger	Used to remove oxygen and reduce corrosion in water systems.
25	In-E1006	Boiler antiscalant and anticorrosion (polymer-based)	A solution for preventing corrosion and scaling in steam boilers, also containing oxygen scavenger.
26	In-E1007	Boiler antiscalant and anticorrosion (phosphate-based)	A solution for preventing corrosion and scaling in steam boilers, also containing oxygen scavenger.
27	In-E1008	Anti-scaling, anti-corrosion for cooling tower (polymer-based)	A solution to prevent corrosion and scaling in cooling towers that also contains oxygen scavenger.
28	In-E1009	Anti-scaling, anti-corrosion for cooling tower (phosphate-based)	A solution to prevent corrosion and scaling in cooling towers that also contains oxygen scavenger.
29	DE-E1020	Descaler (Mineral acid-based)	A powerful solution for removing deposits in industrial water systems that also contain corrosion inhibitors.
30	DE-E1021	Descaler (Organic acid-based)	A highly effective solution for removing deposits in industrial water systems without causing corrosion.

31	DE-E1022	Hand cleaner (water-based hand degreaser)	A green gel for removing grease from skin surfaces, based on water, which also contains antibacterial disinfectants and skin softeners.
32	DE-E1023	hand cleaner (Organic-based hand degreaser)	A highly powerful cream for removing grease from skin surfaces based on organic materials.
33	DE-E1024	Steel polish solution	A strong polishing solution for faucets, sinks, steel surfaces, etc.
34	DE-E1025	Building facade cleaning solution (facade cleaner)	A powerful solution for cleaning composite, aluminum, and other building facades.
35	DE-E1026	Carpet and rug cleaning solution	A solution for cleaning all types of fabric sofas, carpets, and rugs, etc.
36	DE-E1027	Leather cleaning solution	A specialized solution for cleaning all types of leather bags, leather jackets, etc.
37	DE-E1028	Scale remover	an acidic solution for removing scale and stains from sanitary fixtures, tiles, glazed ceramics, etc.
38	DE-E1029	Stain remover solution	A powerful solution for removing any type of stain from carpets, fabrics, etc.
39	DE-E1030	Glass cleaner solution	A strong solution for cleaning and anti-fogging glass surfaces.
40	DE-E1031	Boatwash solution	A highly powerful solution for washing and polishing boats, ships, subways and city trains, cargos and other exterior surfaces.
41	DE-E1032	Zero-wash solution	A solution for washing car interiors (such as fabric, leather, plastic, etc.).
42	DE-E1033	Car shampoo and wax (polisher)	A cleaning and polishing solution for car washing.
43	DE-E1034	Car rim cleaner	A strong solution for cleaning both light and heavy vehicle rims.
44	DE-E1035	Regular car wash liquid	A liquid for washing cars that can be used in all car washes.
45	DE-E1036	Touchless car wash shampoo	A shampoo for washing cars without the need for spraying water on the car or manual intervention.
46	DE-E1037	Scale remover solution (Acid chloride-based)	A very powerful scale remover solution based on acid chloridric for domestic and industrial consumption
47	DE-E1038	oven/stove cleaner	A strong solution for cleaning and shining of domestic and industrial stove
48	DE-E1039	liquid Handwash	A high quality solution for washing hand

49	DE-E1040	Dishwashing liquid	A concentrated solution for washing and degreasing dishes
50	DE-E1041	Washing machine liquid	A concentrated formula for washing clothes
51	DE-E1042	liquid laundry detergent (suitable for black and dark clothes)	A liquid for dark clothes by preventing color fading in and whitening
52	DE-E1043	Rust removal	A solution for removing rust
53	In-E1010	PH regulator	A solution for balancing and regulating PH
54	In-E1011	PH regulator (Anti-corrosion)	A solution for balancing and regulating PH ,containing corrosion inhibitor
55	In-E1012	Boiler feed Water Treatment	A solution injected into the water inlet of boiler to inhibit corrosion and scaling
56	DE-E1044	Rigwash (water-based)	A water based solution for washing oil Rig platform or Industrial environments
57	DE-E1045	Rigwash (solvent-based)	A solvent based solution for washing oil Rig platform or Industrial environments
58	OP-E1001	Octane booster	Designed to increase the octane number thereby increasing the vehicle's performance and gas mileage
59	OP-E1002	Octane booster (Pro)	Designed to increase the octane number in new and high-end cars thereby increasing the vehicle's performance and gas mileage
60	DE-E1046	Injector cleaner (In car tank)	A solution poured into fuel tank for washing injector
61	DE-E1047	Engine cleaner(Inside)	A solution for washing the inside of the car engine poured into the tank before changing the oil
62	IN-E1013	Car antifreeze	Engine coolant , help regulate your engine temperature during extreme conditions and prevent engine freezing

 Due to the diversity of contamination in various industries, most sales of Teekco's cleaning products are based on customization. After identifying the type and volume of contamination, as well as relevant industry and region, a specialized cleaning solution is created and provided to the customer.
